

Affecting even against Coronavirus

Is your environment empty?

Donévit Ufit-CD is the solution for you!

Donévit™ Ufit-CD reduces harmful airborne bacteria and virus up to 60% of your environmental inhouse air. Donévit™ Ufit-CD is programmed to reduce *Staphylococcus*, *Streptococcus*, *Adenovirus*, *Enterovirus* and many other airborne harmful bacteria and viruses; even *mold spores* and *smoke/smell particles* can be reduced!

Donévit

Donévit Ufit-CD is exclusive equipment for health and preventive care.

Donévit Ufit-CD is produced in co-operation with the International Space Board for harmful bacteria reducing.

Donévit Ufit-CD have embraced the technology and developed a wall-mountable harmful bacteria "reducer". The goal is to keep the airborne harmful bacteria and virus level low which would cause colds and flu epidemics. These "beasts" need to be reduced continuously and be kept on a low level.

Donévit Ufit-CD unit also can handle mold spores, odors caused by decomposition and reduce the smell of smoke particles.

Rigorous measurements have been performed in absolute real environments there surveys shows that this excellent unit can reduce the environmental harmful bacteria level up to 60%.

Employers and employees lose billions each year in the form of sick days and declining health among staff, etc. Then you have not taken into account, delayed projects or other loss of income and due to ill or sick staff. (Source Swedish SCB)

Investment:

The return of investment in a one (1) **Donévit Ufit-CD** unit pays it back already when decreased 3 sick leave days per year. It is costly to have sick personnel in a workplace, secondly you risk infecting others and also, sick person do not have a the same high efficiency as healthy one. Do you really have afford lose this revenue?

Donévit Ufit-CD - How does it work?

Donévit Ufit-CD purifies indoor air under the various pre-programmed selections (even customized programs can be selected). The device is controllable via Bluetooth mobile app (downloadable for free from Internet) or via buttons on the front panel. **Donévit Ufit-CD** decreases the invisible harmful airborne bacteria and viruses which are around us every day. The same technology is used today in hospitals throughout the world to purify ambient air including of surgery/operating rooms.

Donévit Ufit-CD is quiet, does not emit harmful radiation, easy to assemble and hung on the wall where it easily fits into the surroundings.

Usage and installations!

All the hotels, restaurants, nursing homes, health centers, kindergartens, schools, gyms, cinemas, theaters, waiting rooms receptions, hygiene demanding environments etc.

Ufit-CD should be installed wherever public health is demanded!

Donévit Ufit-CD affects harmful bacteria and virus

Now; Finally Ufit-CD technology is available for everyone!

**"For a healthier work environment
and better public health"**

We all need bacteria to survive. Bacteria is the base element for all life. Bacteria are all around us every day, they follow us humans. We also have harmful airborne bacteria and viruses that makes us sick and infected. When people stay indoors, bacteria collect's and thus risk making us sick. The only way to protect our selfs is to minimize the harmful bacterial levels. Therefore Ufit-CD is an ultimate solution to surpress influenza epidemics and to avoid exposure to unnecessary health risks.

Benefits:

- Ufit-CD is silent <32dB(A)
- It fits easily (natural white). See picture 1
- Reduces effectivily >25m²/h
- Easy mounting (2 screws)
- Easy programming thru BlueTooth 4 or higher (Android in the future even iPhone).
- 30 pre-programmed On/Off times
- Manual programming possible
- No reprogramming needed after installatio/setup
- No "active" service needed
- Just wipe the surface to make it clean
- Small in size (50*17*7cm)
- Power consumption <6\$/year in normal usage
- CE approved
- ISO13485 for medical usage

Easy to mount on wall or portable

Ufit-CD For a healthier environment and better public health!

Donévit Ufit-CD affects harmful bacteria & virus!

Now the Ufit-CD technology is even available for you!
